

Petition 4 Seditio - by Kefentse Xeexkat

A revolutionary decision,
A liberatin' mission,
All my life I've been wishin',
To sign a petition 4 seditio.

To establish a new way,
Invent new rules & laws to obey,
For the people supposedly made from clay,
See we tired of livin' this way!!

I had a visual revelation,
Of implimentin' seditious education,
It's a life-long full-time occupation,
To give the Blackman & Woman emancipation.

Rebellions, insurrections and subversive schemes to plot,
Cause this system seems to engage in adverse schemes alot,
By those same adverse schemes this same system shall rot,
And i'm basing this petition off the Black love I got.

So I got a petition 4:
Those without fear,
Those Afrikans born abroad, and those born right here.
Particularly to the freedom fighter whose works remain sincere,
Be patient no more,
for the day we go to war,
is prophetically & mathematically near.

So grasp your political & cultural ambitions,
Time to make a freedom or death decision,
Our enemies are engagin' us for one last collision,
So I got a petition 4 seditio that dont include provisions.

Time to unlearn & control our own minds,
Time to allow our efforts & strategies to combine.
Time to introduce your guerillas to mine,
This is A Petition 4 Seditio-
And all Afrikans need to sign!

Uhuru!!!
